ELECTRO MERIDIAN IMAGING (EAV BIOFEEDBACK)

CHIROPRACTIC EQUIPMENT USED FOR ELECTRO MERIDIAN IMAGING TO TEST SAFE~CONNECT PLUS+® SHIELDS FOR STRESS REDUCTION AND REMOVAL DURING CELL PHONE USAGE. ~ Dr. David Mitts - March 2009 *(See references at bottom)*

When we added **Safe Connect Plus+®** Shields to the body, we selected meridians to observe the effects based on healthy meridian levels.

Results from testing women ages 21-27 on the heart meridian point I.7.

This point was chosen because it is perhaps the most important meridian to test for the negative effects from cell phone usage.

Roxanne:	☑ Baseline: 50	☑ Cell phone w/o shield: 58	☑ With SCP Shield: 50
Christiana:	☑ Baseline: 48	☑ Cell phone w/o shield: 58	☑ With SCP Shield: 48
Razel:	☑ Baseline: 36	☑ Cell phone w/o shield: 52	☑ With SCP Shield: 40-41

The Ryodoraku Acupuncture Meridian Measurement Machine essentially measures electrical skin resistance along the skin of the body. Acupuncture points demonstrate the presence of decreased resistance or an alternative description would be increased presence of electrical energy.

THERMAL MONITORING OF PHYSIOLOGICAL CHANGES (RELATED TO THE USE OF A WIRELESS CELL PHONE)

This study was evaluated with a high definition radiometric thermal imaging camera with precision temperature analysis.

1. Initial images were taken as a baseline. Subject had not used her cell phone for > 1 hour.
2. Subject held the phone with a live call, 1 inch away from her right ear (to avoid heat) for 5 minutes.
3. Subject waited two hours, attached a Safe Connect Plus+ cell phone shield to the back of her phone. She also wore a Safe Connect Plus+ body shield for two hours and repeated the call for 5 minutes.

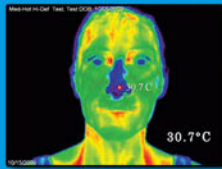

Observation: The most obvious physiological change observed when using the unprotected cell phone was a significant increase (> 2 degrees C) in the temperature of the nose with less than significant changes in the area of the ear itself. It also appears that circulation improved in the head and neck areas.

Carol Chandler practices as an Acupuncture Specialist in Lakeland, FL.

“So far I have been testing my patients through kinesiology (brain & muscle response testing) and comparing them to other EMF blockers I have used. While using cell phones with the Safe Connect Plus+ EMF Shields, the Bio field strength test goes out 50 ft. from the body to bring balance and shielding. Energy is energy.”
