

DUAL LASER POINTER PRODUCT DATA SHEET

Output Power: 50mW
Batteries: LR1 (N Type) x 2
Wavelength: 532nm+650nm
Dimensions: 7 inches x 1/2 inches

As man's understanding of physics has grown, we have become increasingly aware of the mutual impact between man and his surroundings. One key discovery that modern physics has revealed is that all matter vibrates at various frequencies. These oscillations, waves, and frequencies can have varying impacts on their surroundings, and on us. When healthy, balanced, and uncompromised by our surroundings, we find that organs, glands and the body's systems all the way down to our cells, have their own specific set of frequencies. **Safe~Connect Plus+®** has taken these frequencies, as well as other natural and health promoting frequencies, and created our own proprietary blend used only in **Safe~Connect Plus+®** products. These frequencies are what we call "**harmonic resonant frequencies**" and have been formulated by scientists, quantum physicists, doctors, and healthcare practitioners. They are encoded into the nano-crystals used in all our EMF shielding products, including our lasers.

Safe~Connect Plus+® laser pointers have been encoded with the same 200+ Harmonic Resonant Frequencies and take advantage of the same advanced technology found in our resonance shields. When you use the laser on an area of your body, your body begins to "resonate" with the healthy frequencies encoded within the laser. You can think of this as the same principle upon which a "tuning fork" operates. This same "tuning" occurs when you point the laser toward a glass of water or a plate of food – the water or food will resonate to the frequencies encoded into the laser. This resonating action brings the body or object into a balanced state. Once the body is in a balanced state, it is able to protect and function in a more harmonious and healthy way. Results vary! Use it yourself and see!

ENCODED FREQUENCIES Total: 200+ Frequencies

The frequencies that have been encoded represent healthy body systems, glands, organs, vitamins, etc. as follows:

- **Organ System** (*heart, lungs, gallbladder, spleen, liver, pancreas, kidneys, bladder, intestines*)
- **Immune System** (*lymphatic, brain, thymus, liver, skin, tonsil/adenoid, appendix, bone marrow, connective tissue*)
- **Digestive System** (*parotid, TMJ, stomach acid, stomach, gallbladder, liver, pancreas, intestines, bowel flora*)
- **Endocrine System** (*thymus, hypothalamus, pituitary, parathyroid, thyroid, adrenal, pineal, ovary, uterus, prostate*)
- **Lymphatic System**
- **All Amino Acids**
- **All Cell Salts**
- **All Vitamins**
- **All Minerals**
- **All Trace Minerals**
- **All Colors**
- **Assorted Essential Oils**
- **Assorted Herbs**
- **Proprietary Blend of Balancing Formulas**
(*designed to modulate or balance the human body, as well as pets & animals*)

Directions:

1. Hold the laser 4-12 inches away from the surface of each application.
2. Move the lasers in a circular motion going clockwise or use sweeping brush strokes over an area for 20 seconds.
3. Let the laser cool for 20 seconds.
4. Repeat if desired.

NOTE: Only use the lasers for 15-20 seconds at a time and then allow a cooling time of 15-20 seconds. They can be used for periods of up to 5 or 10 minutes as long as they are applied at the 15-20 second intervals with a cooling time in between each usage as already instructed. Move the lasers in a circular motion going clockwise.

Suggested areas to apply laser:

- The ears (Back & forth paint strokes to cover area)
- The pulse points on the wrists (small circular clockwise motion)
- The thyroid (small circular clockwise motion)
- The bottoms of the feet (Back & forth paint strokes to cover area)
- The navel area (small circular clockwise motion)
- Any area of pain (small circular clockwise motion)
- The entire spine (Begin at the base moving in small circular clockwise motion up to the top of the head)

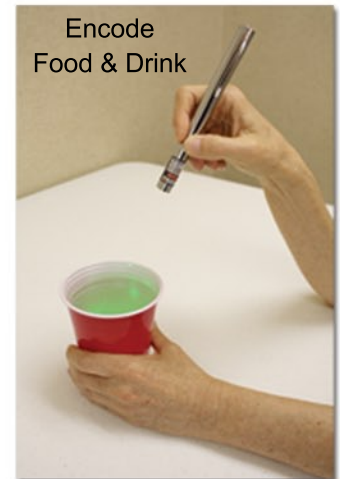

According to Research & For Educational Purposes Only Colors Have Been Known To Have Positive Effects:

Red Color:

- Warming Color
- Promotes support of the autonomic nervous system & circulatory system
- Promotes support & rebuilding the liver
- Involved with the adrenals, pituitary, spinal column, sympathetic nervous system
- Helps restlessness, nervous tensions, anxiety
- Anemia, endocrine dysfunctions, bronchitis, asthma, pneumonia, physical debilitation, constipation, blood disorders

Green Color:

- Cooling color
- Support for pituitary, infections, sores, cuts, bruises, burns, scar tissue, building of cells, tissues, muscles, food allergies, purification & disinfecting
- Support for eyes (DO NOT look into laser)
- Involved with blood vessels, GI tract, thymus, immune system, heart, lungs, circulatory system
- Helps quiet & calm nerves
- Used for general support, back problems, exhaustion, heart problems, irritability, colic, hay fever, asthma, neuralgia, venereal disease, malignancy, hemorrhoids, insomnia, nervous disorders, hypertension

Full Spine

CAUTION!

NEVER POINT A LASER TOWARDS OR INTO THE EYES!

Disclaimer: Results may vary in different individuals based on personal imbalances. The information presented here has not been evaluated by the FDA and is not intended to treat disease or cure symptoms. It is for self-education and information purposes only. Please consult your physician or other professional help with any health issues. Due to the sensitive nature of this product, there may be slight variations in the Laser light's levels of intensity. These variations are normal for this product. The effectiveness of this product is not diminished as a result of these variations. We strongly recommend using high quality batteries and changing the batteries often for best results.
